

The Frontline Ecosystem Map

This map outlines the essential systems frontline teams need across the employee journey — and how to connect them into one seamless stack.

**START YOUR
EMPLOYEE JOURNEY**

STEP 01

Identity and access management

Provision users and control access centrally to improve security and reduce manual work.

 Google SSO

 okta

Beekeeper enables one-tap access without needing extra logins or credentials.

HRIS and onboarding

Automate onboarding, streamline data delivery, and ensure every new hire has what they need from day one.

 workday

 SAP SuccessFactors

 UKG

 ADP

 dayforce

Beekeeper auto-assigns onboarding tasks based on synced HRIS data and sends reminders so nothing gets missed — all from a single app.

STEP 02

STEP 03

Training and resources

Distribute training and key documents to ensure consistency, compliance, and knowledge retention.

 Sharepoint

 docebo

 easylearn

 cornerstone

 absorb

 innform

 360learning

 SAP SuccessFactors

Beekeeper surfaces training and resources in the flow of work, making it easy for teams to access info and complete training from their phones.

Payroll

Centralize access to payslips and payroll updates to reduce confusion, cut down on HR requests, and increase transparency around pay.

 ADP

 ORACLE

 PAYCHEX

 ABACUS
Business Software

Beekeeper links workers to their payslips — making it easy to access from their phone without logging into HR portals. Rewards and Recognition.

STEP 04

STEP 05

Shift scheduling and resource planning

Manage labor coverage and optimize resource allocation across people, equipment, and locations.

 Fourth

because time matters

 deputy

 homebase

 gastromatic

 UKG

Beekeeper shares real-time updates, enables shift swapping, and supports incident reporting forms, shift checklists, and other frontline workflows.

Rewards and recognition

Enable recognition to strengthen culture, improve morale, and retain top talent.

 bucketlist

 snappy

 TANGO

 nectar

Beekeeper powers one-click peer recognition and links to existing reward platforms to boost participation and create a culture of appreciation.

STEP 06

STEP 07

Office team communication

Ensure office communications flow to the frontline — from policies and updates to documents and announcements.

 Sharepoint

 Microsoft Teams

 slack

Beekeeper connects to platforms like SharePoint, Microsoft Teams, and Slack to bring essential intranet content and company-wide updates into the flow of frontline work — no desktop, email, or logins required.

Building a better frontline experience

Frontline workers don't just need better tools — they need a better experience. To learn how Beekeeper can support your HR tool ecosystem, schedule a demo today!
